APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source.  
It is understood that the amount of water herein granted is only a  
temporary allowance and that the final water right obtained under  
this permit will be dependent upon the amount of water actually placed  
to beneficial use. It is also understood that this right must allow  
for a reasonable lowering of the static water level at permittee's  
well due to other ground water development in the area. A substantial  
weir or other type of measuring device must be installed and measure-  
ments of water use kept. The well shall be equipped with a 2-inch  
opening for measuring depth to water. If well is flowing, a valve  
must be installed and maintained to prevent waste. The State retains  
the right to regulate the use of the water herein granted at any and  
all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and  
not to exceed 1.782 cubic feet per second annually.

Actual construction work shall begin on or before June 29, 1970  
Proof of commencement of work shall be filed before July 29, 1970  
Work must be prosecuted with reasonable diligence and be completed on or before June 29, 1971  
Proof of completion of work shall be filed before July 29, 1971  
Application of water to beneficial use shall be made on or before June 29, 1974  
Proof of the application of water to beneficial use shall be filed on or before July 29, 1974  
Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed MAR 13 1970  
Completion of work filed MAR 13 1970  
Proof of beneficial use filed FEB 4 1970
